

To assist you in on-boarding new partners using IBM B2B Integrator, ComResource created Flex (Flexible Foundation Pack) to provide the simplest and most efficient approach to implementing your integration solutions.

We understand that streamlined process patterns and methodologies are key in on-boarding new trading partners. Flex was designed to allow you to simplify the setup of your business processes and quickly complete your on-boarding efforts.

WHAT FLEX PROVIDES

Customized proven process patterns

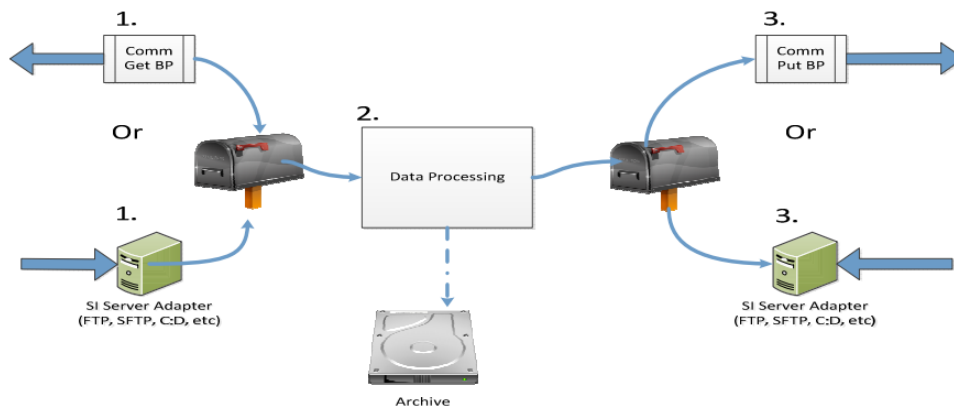

- Developed utilizing years of process patterns experience
- Allows you to run YOUR business processes - not conform to someone else's

Standard and core product features

- Properties files / search capabilities
- Will be fully supported with new versions

Best Practices:

- Ability to build a unique configuration for your business
- Pre-built business processes

HOW FLEX WORKS

Pre-built business processes

Easily extensible

Document and communication tracking status in one system

Simplified partner on-boarding

Extended document-level reporting and tracking capabilities

Real-time global visibility and actionable insights / quicker and improved decision making

Restart and resend files/documents from extended long-term data storage
