

TRUST YOUR INFRASTRUCTURE, ASSETS, & SOFTWARE TO THE EXPERTS

COMRESOURCE MANAGED IT SERVICES SUPPORT

Does your business lack technical resources to keep your systems up-to-date, connected, and secure?

Would you benefit from a 24/7 IT Help Desk and quick access to certified engineers?

Can your business withstand the disruption caused by a security breach?

Solution At-A-Glance

Our Managed IT Services Support team not only manages, monitors, and responds to IT service activities 24x7x365, but we also oversee all critical infrastructure and devices. As a Microsoft Gold Partner, our certified Engineers engage in preventative and proactive systems' monitoring and management, so you can worry about your day-to-day operations.

We've Got You Covered

- ✓ Advanced certified engineers & talented IT specialists
- ✓ Assets inventory maintenance
- ✓ Assessments / daily system health checks & maintenance
- ✓ 24/7 remote monitoring & management on all assets
- ✓ Outsourced IT / help desk
- ✓ End user devices and other hardware support
- ✓ Network and ISP management
- ✓ Physical & cloud infrastructure services
- ✓ SaaS/laaS based integrations
- ✓ License(s) management & compliance
- ✓ Microsoft & 3rd party software patching
- ✓ Backup & disaster recovery
- ✓ Antivirus & malware monitoring
- ✓ Scheduled reports
- ✓ On-site & remote tech support

Call us for an assessment!

We'll get you on the fast-track to a secure, consistent, and reliable **Managed Services IT Support** framework.
